2<sup>nd</sup> July 2013,

**APPLICATION FOR 4th AFRICAN PEERING AND INTERCONNECTION (AfPIF)  
FELLOWSHIP**

I hereby apply for a full fellowship for the 4th African Peering and Interconnection Forum (AfPIF) holding in Casablanca Morocco starting from the 3 - 5 September 2013.

I have the full approval of nomination from the management for the events and as such the application.

I will be Departing from Lagos, Nigeria on the September 2013 so as to attend the Af-IX meeting to be held on afternoon of 2nd September.

We have a mailing list which we provide such information and events (like the AfPIF event) to all our members. This we did last year for the APFIF event. Constant reminders via our mail correspondence will also be effective.

Last year we had interest from some operators but unfortunately they were unable to meet with the demands of travelling due to the short notice provided and itinerary. This year we will follow up on such members soon.

Our experience will be best shared during the next Technical peering meeting with our Peers. Any Emerging technologies or best practice modulus will be posted immediately in the mailing list.

Thanks for the opportunity.

Regards  
Anibe Onuche
